

CAMPAIGN WALES

CND CYMRU MEMBERS NEWSLETTER.

No. 3 April - May '87

(Extra copies 15p)

SAY YES TO NUCLEAR FREE BRITAIN JOIN US ON APRIL 25th

Following the successful 5th Anniversary of Nuclear Free Wales CND Cymru urges everyone to join us in London to help make Britain a nuclear free reality.

Remember

All nuclear technology is dangerous. No one has it under control. An accident in a nuclear reactor, a nuclear warhead convoy crashing on an icy road, nuclear war triggered by a faulty computer in a tense world.

Therefore

As support for a nuclear free Britain grows, our chance for change grows too. That's why — a year after Chernobyl — the Campaign for Nuclear Disarmament and Friends of the Earth are calling a demonstration, if you want Britain to be nuclear free — be there. You could make all the difference.

Meet 12 noon near Waterloo Bridge (see map).
Bring your Banners and Placards

Wanted in London on April 25th

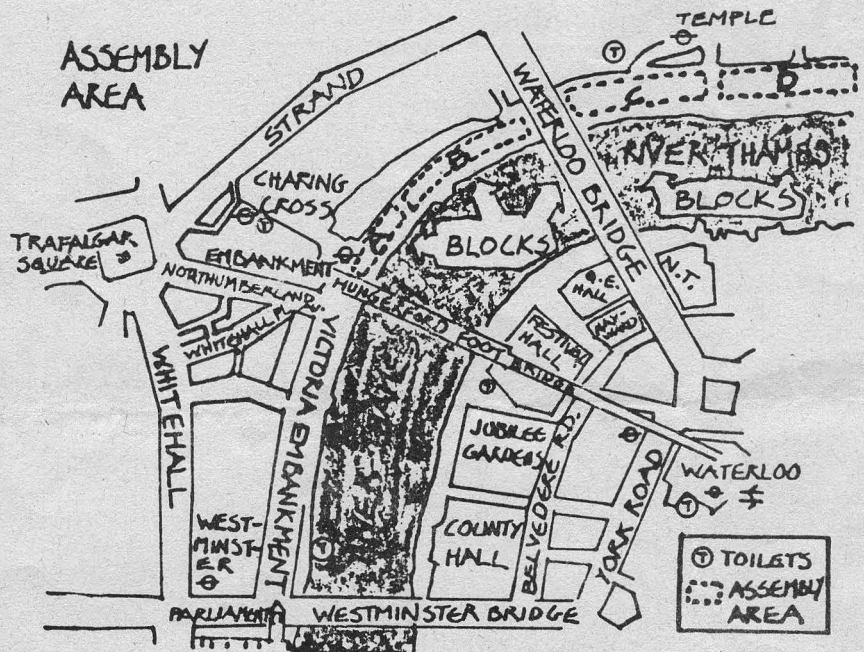

A choir for Wales: anyone interested in singing or playing as we march please meet by the CND Cymru banner.

Cycling from Wales to London

CND Cymru is providing the first leg from Cardiff to Bristol on Tuesday 21st April. Anyone interested meet 8.30am ROF Llanishen: details Bob Cole.

Easter Sunday

Peace groups are organising motorcades through their towns or villages to mobilise as many people as possible for April 25th and to spread our message 'TOWARDS A NUCLEAR FREE BRITAIN.'

GENERAL ELECTION SPECIAL

WHEELS AROUND WALES

Thanks to the work of groups and individuals all around Wales, the fundraising bike ride was a great success. And no punctures! We have now banked over £5,000 and we expect a few thousands more. The fund is still open for those who have not yet donated, and we ask all CND members to send their sponsor forms, with money, to Martin Ashby as soon as possible. We must all put a greater emphasis on fundraising to match our increasing and diversifying campaigning commitments; this means we may soon have to start thinking about a big event for next year! Any ideas?

The campaign is alive and well in all parts of Wales; each reception, public meeting and event along the route had a different atmosphere and emphasis, and this is a testament to the diversity and independence of our groups. We were greeted by people of all political parties, all religions, languages and philosophies and the alliances we made with other movements and organisations has opened up new avenues for the future. Most exciting was the work with Christian Aid and War on Want (Cymru) in making the connections between world poverty and the spending on arms. We were pleased to present each organisation with cheques for £1,000 at the Annual Conference in Lampeter.

The Nuclear Free Zone movement is growing rapidly, and the many organisations we met were keen to be associated with it. If the town of Barrow (where Trident submarines are being built) can declare itself a Nuclear Free Zone, then every community in Wales can do so. If we are to make this patchwork of Zones cover the whole of Europe and the rest of the world, we all have a role to play. We must take our Welsh banners to London on April 25th, and also lobby our councils in the run up to International Nuclear Free Zone Day on June 1st. West Glamorgan have just agreed to put 'Nuclear Free Zone' stickers on all their County Council vehicles as a result of pressure from people like us. June 1st would be the perfect day for the other councils to take action: ring Bob Cole (0766 831833) for help and advice on the way forward. Don't forget the 'dove' stickers at 40 pence each!

Thanks to everyone who helped the 'Wheels Around Wales' team.

Morgan and Martin

ATOMS FOR PEACE OR THE PLUTONIUM ECONOMY

Following the Layfield report and the go ahead for Sizewell 'B', we can probably look forward to a 'small family' of PWRs.

It all started at Windscale. In October 1950 the first Windscale 'pile' started operation, followed 8 months later by number 2. In February 1952 the first plutonium was extracted and sent to Aldermaston. In October 1952 the first British atomic bomb was exploded

For the last 30 years public relations men have attempted to present as separate, the technology for nuclear electricity and nuclear weapons. This was continually challenged and in March 1986 Sir Walter Marshall (Chairman CEGB) finally admitted that plutonium from the civil nuclear programme had been used for nuclear weapons.

The key to the links is REPROCESSING, which is certainly not about waste management, because it generates 200 times the original amount waste and there is at present no acceptable means of disposing of this high level radioactive waste. The Government considers that the plutonium and unburnt uranium, that the spent fuel rods contain, is a valuable resource to be recovered. The Reprocessing Plant at Windscale can separate more than 2 tons of plutonium each year, but as plutonium from civil and military reactors is 'co-processed', there is no indication of the source of the resulting plutonium.

HINKLEY POINT 'C'

The CEGB have confirmed that they are to apply for planning permission to build a PWR at Hinkley Point, in the wake of consent for Sizewell 'B'. It is vital that the people of Wales register their protest at this folly. Peter Walker's confidence in the PWR is not shared by the British people, two thirds of whom are opposed to any expansion of nuclear power. To register your protest NOW write to these people, informing them that you wish to be informed of the details of the CEGB's planning application for Hinkley Point 'C', when the application is made, because you intend to object to the proposal:

**CELEBRATION OF MOUNTBATTEN DAY,
SUNDAY MAY 10th 1987**

Ex-Service CND is working hard to get local authorities throughout Wales to celebrate Mountbatten Day (the Anniversary of his Strasbourg speech) on May 10th, as was agreed in principle by the NFZ Forum last November. The Strasbourg speech, an unequivocal rejection of the notion that nuclear weapons constitute a defence was made, by an Establishment figure and an outstanding military expert, who had changed his mind. It was one of the most important and movingly phrased warnings ever given about the danger of nuclear weaponry: and it is important that we do all we can to encourage our local Authority to re-emphasise the warning, by celebrating Mountbatten Day.

Ex-Services CND offer these suggestions for Council activity:

The Mayor/Chairman of the Local Authority could extend an invitation to all Councillors and to members of Ex-Service CND, Royal British Legion, RAFA etc. Also invitations should be sent to youth and church organisations and representatives of local Peace Groups.

Assemble at a convenient time and venue on May 10th.

- A short parade to the local War Memorial.
- Prayers offered by Council Chaplain or other Minister.
- Lowering of flags and banners.
- Laying of suitably inscribed poppy wreath.
- One minute's silence in memory of Lord Louis Mountbatten and also of all those who have died in nuclear weapon testing.
- Final prayer.
- Raising of flags and banners.
- Distribution of copies of Lord Louis Mountbatten's speech.
- Dispersal.

Supplies of copies of the speech can be obtained from:

Quaker Peace and Service
Friends House
Euston Road
London
NW1 2BJ Tel: 01-387 3601

SOUTH AFRICAN NUCLEARISATION

'No rules apply if it comes to the question of our existence'. So said South African Information Minister Connie Mulder in 1977.

In 1987 this has a chilling meaning for us all. South Africa possesses the ultimate means of destruction, the nuclear bomb, and is prepared to use it to perpetuate its own vicious racist regime.

This bomb has been acquired with the active assistance of Great Britain, West Germany, Israel, the U.S.A. and France. It is no coincidence that both South Africa and Israel have unofficially and simultaneously joined the Nuclear Club. Their co-operation in this field and in other military matters has been extensive and latterly confirmed by the Vanunu disclosures over the Dimona Plant in the Negev Desert.

Substantial foreign capital, particularly British, is invested in South African Mining and Uranium Mining Industries.

The most flagrant example of British involvement is the Rossing Uranium Mine in Namibia. Rio Tinto Zinc, a British multi-national, manages and has a substantial holding, in the Mine, which accounts for all of Namibian uranium production. This is extremely profitable to RTZ.

The dependence of the nuclear programmes of European States upon low-cost uranium from Namibia places severe obstructions in the way of Namibian Independence. The major Western European powers were, in the late 1970s 80% dependent on foreign uranium, a large proportion of which came from South Africa and Namibia.

The full extent of South African and Namibian uranium exports is unknown. It is known that large quantities of uranium are being imported from Rossing by the C.E.G.B.

A danger for us all is that Nuclear War, if there should ever be such a dreadful catastrophe, may not start in Central Europe, or even the Middle East, but maybe provoked by a racist South African Regime of 'bitter-enders' fighting to the last to maintain their supremacy in Southern Africa.

For further information contact Christopher Short, Solicitor, 3rd Floor, Usdaw Building, 42 Charles Street, Cardiff CF1 4EE. Tel: 0222 32657.

THE WAY AHEAD

RHODRI GLYN THOMAS *Chairperson, CND Cymru.*

a need to pay attention to local elections. Issues such as the Carmarthen Bunker have proved the need for councillors who can withstand manipulation from central government.

During the forthcoming year we will, as an organisation, be dependent on your support. The campaign is in your hands, locally and Nationally. Nuclear Disarmament will not happen without your participation.

But we will not be able to develop as a movement unless our membership increases. If you are serious in your support for the peace movement commit yourselves to a membership campaign. Are all your group members National Members? We have the support of the majority of the people of Wales but until that is transferred into National membership we are being stifled.

Therefore the message is start knocking doors and get those membership forms filled up.

CND Cymru is a pressure group, committed to the campaign for Nuclear Disarmament.

During the AGM we discussed issues central to that campaign and held workshops of a campaigning nature.

The way ahead is to simply re-double our commitment to that campaign.

We cannot therefore allow ourselves to be aligned to any political party or policy. The tragic consequences of such action is now clearly evident.

We cannot compromise the campaign by defending the Labour Party and Plaid Cymru. They must be questioned and pressurised in the same way as the Conservatives and the Alliance. The Labour Party stand on NATO and Cruise is not understandable, and Plaid's line on Nuclear Power is far from clear or united.

Our election strategy must be to support candidates who are committed to our aims and campaigns. There is also

LATE ENTRY May 30th - London, Y.C.N.D.

Enclosed is a WALES AGAINST NUCLEAR TESTING NATIONAL PETITION form. We have from now until September to make this a massive petition, which should reflect the 72% of the population which is in favour of a comprehensive test ban treaty.

*Women's Peace Camp
Greenham Common
Berkshire*

25 Jan 87

Dear Bob Cole

For several of the convoy outings last year over 1,000 people demonstrated along the route taken by the Cruise launcher and control vehicles in the small hours of the morning. The Greenham Network and Cruisewatch telephone trees are now quite widespread but not everyone finds it easy to drop everything to come and demonstrate each time with the limited notice that can be given — between a couple of hours to a couple of days. So the idea has arisen that if we could target one convoy exercise women could more easily come out as they would have more opportunity to make arrangements.

Consequently we are asking every woman who has ever been to Greenham or always meant to but never quite made it to get onto one of the telephone trees. Your area number is 0444 749421.

Then as soon as you hear that the convoy is coming out or has come out of the base make your way to Greenham. We hope to open all the gates. The exercise USUALLY lasts eight days so come at anytime from then on. The idea is then to do actions on the base, at the deployment site and along the route of the return. NB none of these actions need be illegal; torchlit vigils and banner holding have great effect on the convoy personnel.

We would like to really push for as many women as possible to come to really make our feelings felt in this election year so could you make sure the message gets around with flyposting, posters in shops etc and by telling as many women friends as possible.

Please help to make this work. It would be so amazing to see women all along the route.

In peace,

Meryl O'Connell

GENERAL ELECTION SPECIAL

As we approach the General Election CND CYMRU'S task is two fold; to ensure the election of politicians who are committed to carrying out genuine nuclear disarmament policies and, just as important, to win greater support for these policies among the people. The latter will carry us beyond the Election and ensure continued pressure on whatever Government is elected.

CND CYMRU wants a Britain without nuclear weapons. You have to decide how your votes and influence can bring this about. The table below summarises the position of the political parties on the crucial issues.

AT A GLANCE

CND'S ISSUES
AND WHAT THE PARTIES
STAND FOR

	TORIES	ALLIANCE	LABOUR	PLAID CYMRU	GREENS	COMMUNIST	NOTES*
Cancel Trident		✓	✓	✓	✓	✓	
Stop SDI research		✓	✓	✓	✓	✓	
End Nuclear Tests		✓ ¹	✓	✓	✓	✓	1 Voluntary freeze on testing
Remove Cruise		✓ ²	✓	✓	✓	✓	2 No further deployment during talks
Scrap Polaris		3	✓	✓	✓	✓	3 Keep minimum nuclear deterrent 'no greater than Polaris'
Close US Nuclear bases			✓	✓	✓	✓	
Phase out Nuclear Power			✓	✓	✓	5	5 Moratorium, but Welsh CP Congress agrees
Withdraw from NATO			4	✓	✓	✓	4 Keep conventional US facilities here within NATO Treaty. Increase conventional defence within NATO.

*Summary only. Please refer to Party Manifestos, etc.

CND CYMRU *also* wants a Parliament which works constructively for disarmament. This means initiating action in support of disarmament measures and Nuclear Free Zone policies as put forward by the United Nations. Nuclear Free Zones are now the policy of 20 countries including New Zealand, as well as 3,500 municipal councils. The politicians and parties are now competing for your votes as never before. The Tories claim to be 'negotiating from strength'. All the other parties claim to be offering specific disarmament policies especially on Trident, Cruise, SDI and nuclear tests. Labour says it would go further than the Alliance; the smaller parties would go further still. Though CND CYMRU does not hide its opposition to the present Government's defence policies we cannot give outright support to any one party or candidate.

As well as voting, your *influence* on the Election process could be crucial. Together we can bring about a change in the 'disarmament map' of Wales and a stronger peace movement.

ACTION BY YOU

As an individual member of CND Cymru **we can all:**

- * **talk to our neighbours;**
- * **discuss the issues with people at work, in organisations and societies that we are members of;**
- * **write to all our Parliamentary candidates;**
- * **write letters to the local papers.**

ACTION BY GROUPS

1. Hold a meeting on election strategy **now** — it will be too late when the election is called.
2. Contact your *Parliamentary Monitor* — invite her/him to the meeting to discuss the position of your MP (see: Guide to the Constituencies).
3. If you have no Parliamentary Monitor **contact** your sitting MP to ascertain her/his position.
4. **Contact** every *Prospective Parliamentary Candidate* to ascertain their position, and make contact with local party branches.
5. Send a short questionnaire to the sitting MP and all Prospective Parliamentary Candidates.
6. Organise a Pre-election 'Question Time' at which every candidate is invited to answer questions. **Make sure you have a representative to put CND CYMRU's case.** Advertise the meeting as a Public Meeting see example of Bridgend leaflet.

6. **Leaflet** your constituency or a part of it. Then **canvass** that area with the questionnaire to get people's views.
7. Use the Electoral Register as your starting point to **make personal contact with first time voters.** Give them a leaflet.
8. Use **your street stall** to get CND CYMRU's policies across to the electorate before the election is called. **Sign-up** volunteers to help with your meetings and canvass. **Also sign-up new members for CND Cymru.**
9. **Always keep the Press informed** — nurture contact with a reporter on the local paper, Papur Bro, and local radio.
10. Consider the possibility of helping groups in marginal constituencies. see: Push for Peace. Inform CND CYMRU's Election Group of your activities and their outcome. **Contact** Maggie Verrinder, 12 Pantglas, Pentyrch, Caerdydd/Cardiff CF4 8TH.

Together we can make
Nuclear Free Wales a reality

PUSH FOR PEACE IN THE MARGINALS

At the last General Election in Wales 14 of the Parliamentary seats had majorities of less than 3,500: half of them are Conservative marginals. This means that a small swing or 'tactical voting' could radically alter the political map of Wales and Parliamentary support for disarmament here.

In every one of the seats below the nuclear disarmament vote could be decisive, especially if every peace group in these constituencies mobilise for the Election now; with other peace groups offering assistance where necessary. See 'Action By Groups'.

PWYSWCH AM HEDDWCH YN YR ETHOLAETHAU YMYLOL

Yn yr Etholiad Cyffredinol diwethaf roedd mwyafrif o lai na 3,500 mewn 14 o'r seddau seneddol: mae eu hanner yn etholaethau'r Ceidwadwyr. Golyga hyn y gallai symudiad bychan neu 'bleidleisio tactegol' newid map gwleidyddol Cymru yn sylweddol, ynghyd â'r gefnogaeth Seneddol yng Nghymru dros ddiafogi.

Ym mhob un o'r seddau uchod gallai pleidlais cefnogwyr diafogi niwclear fod yn dyngedfennol, yn arbennig os yw pob grŵp heddwch yn yr etholaethau hyn yn dechrau paratoi yn awr ar gyfer etholiad, gyda grwpiau eraill yn cynnig cymorth lle bo'i angen. Gweler 'Gwaith gan Grwpiau'.
