

Monday May 6th 1974.

Mr Beverley Philip Williams.
Wales Tourist Board
Llandaff, Cardiff.

Dear Mr Williams.

Thank you very much for your letter of April 25th.

In reference to myself and sister Mrs E. Beach (O-H 496), any outstanding balances for accommodations will be taken of upon arrival in Swansea.

The three programs enclosed I think will give some idea of previous years, but I might mention in passing that the printed program itself has lost money over the past six or seven years, I maintain that it should be a money maker if handled properly, I would even go so far to say if it is made attractive enough a small charge would be in order as a souvenir.

Your breakdown of accommodations is very interesting but I'm sure those figures should be doubled by August 1st, Mr Frank Lancaster would appreciate prices for Beck Hall, he also sends his regards.

Yes, we believe the fuel crisis is over but it had us all worried for a time, but we have been assured by Pam - Am that we are on schedule, I will ask you the same question that I asked of Mr Cyril Rees, since we are supposed to be the first large Jet to arrive in the Cardiff airport, will there be any fan fare?.

Your last question regarding Mr David M. Edwards - he is one and the same person listed at 3471 Monticello his home, and 711 Citizens Bldg his business address.

I am taking the liberty of enclosing a photo of myself just in case you may need it for your program..

Pob hwyl.

Yours sincerely

Jack Meadows
