Dear Jack,

Thank you very much for your letter and the news which it contains. We are so glad to hear that things are looking so bright for the Swansea Lymanfa - I only wish they were as bright in other directions!! It pleases us so that you get along so well with Glyn Robert's. His personality far outweighs his stature and his father is so well respected in Wales.

This is only a quick note without referring to other matters for the moment. We have just learned that the next executive meeting is in Swansea on Nov 12<sup>th</sup>. (Which means our having to go down on a Sunday - not so pleasant!) We are trying to get the music committee

09. USA

I am sure the question of banquet tickets will be on the agenda  
so I would like to have your opinion. Do you think 8.50 would keep  
people away?

together to choose hymns amongst other things. I find however that neither Angharad nor I have a copy of the latest printing of our hymnal in which some changes were made. Dare I ask you please to air-mail a copy as soon as possible.

One other question which, as you know, has been giving us much concern is the price of the banquet tickets. Now just between us for the moment as it is not official. There may be a possibility of getting the price down to £3.50 which means about \$8.50. Do you think this would be acceptable? It does not include any wine and I do not think it will be possible to set up a bar at the University. The big problem is that there is no hotel in Swansea that can accommodate the numbers so they have to fall back on caterers (who are fully aware of this situation and whilst nobody has mentioned this, it seems a fairly obvious conclusion). Angharad joins me in sending our very best wishes. Yours ever Trevor.
